## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-13 are rejected under 35 U.S.C. 102(e) as being anticipated by Ravindranath et al. (US 6,987,756 B1, hereinafter "Ravindranath").

Regarding claims 1-3, 6-7, 10-11, Ravindranath discloses a method for communication between a switched-circuit network (analog link 160) and at least two Voice over Internet Protocol network domains (network clouds 115 and 155), comprising:

transferring registration request messages from a gateway device (gateway 125) to a signaling controller in each of the VoIP network domains, respectively (gateway 150 allows registration on both network clouds 115 and 155; col. 5, lines 31-54); and simultaneously registering the gateway device (125) in the VoIP network domains (col. 5, lines 31-54).

Regarding claims 4-5, 8-9, 12-13, gateway 150 allows telephone calls being endpoints on network cloud 115 and endpoints on network cloud 155 (col. 46-50).
